INTRODUCTION

This Drinks Bible has been lovingly put together with input from heroes across the Coaching Inn Group.

Most companies run an 'employee of the month' award, however, we don't feel this goes far enough. Every month we go out of our way to find our own heroes and their heroic acts can range from creating memorable moments to even saving a life. We love the heroes that work with us so we asked their valued opinions when it came to putting this menu together:

***Basil Basil Fulton** from the **White Hart Hotel in Boston** loves the Warner Edwards Rhubarb Gin, paired perfectly with mint and a slice of orange.*

***Craig Francis** from **The Golden Lion Hotel in St Ives** is particularly fond of a Coconut and Pineapple Daiquiri, explaining the tropical flavours are the perfect complement for a warm summer's day.*

***Marni Birchall** from **The Castle Hotel in Conwy** has chosen our refreshing Le Altane Prosecco as her favourite tipple.*

***Simon Wood** from **The Kings Head in Richmond** enjoys a nice whiskey as his nightcap and can recommend Jack Daniels over ice.*

Whether you like your Martini shaken or stirred, your gin with lemon or lime or your Pinot Noir chilled, we have a drink for everyone.

The wines on our list have been very carefully selected by wine experts from within our group as well as industry tasters. The result is a beautifully balanced list with a wine for all seasons and every occasion; all of which pair perfectly with the dishes on our menus.

Particular favourites are the Dashwood Pinot Gris with bold fruity flavours and notes of pear drop sweets, and the Kleine Zalze Pinotage which has a natural smokiness that complements the deep fruity and spicy flavours.

We know and love gin as you can see from our gin range as well as our list of recommended gin and tonics, however, we the Coaching Inn Group predict the next big thing will be rum so why not try one of ours with a fiery Ginger Beer?

Whatever your tipple; be it gin, rum, wine, or whether you fancy trying something new we're confident we have the drink for you!

CHAMBORD

Chambord is inspired by a unique black raspberry liqueur produced in the Loire Valley in France on the late 17th Century. It was introduced to King Louis XIV during one of his visits to the Chateau of Chambord during his reign.

Its distinctive orb-shaped bottle has been a symbol of the French monarchy for centuries. The exquisite jewelled lid and gold detailing on the shoulders further emphasize Chambord's royal inspiration.

It is made with the world's finest raspberries, Madagascan vanilla, citrus, honey and XO Cognac that are all chosen to make the delicious black raspberry liqueur. They are carefully blended in a unique 3 step process that lasts 6 weeks. Every step is carefully overseen by the Maitre Liquoriste. These super premium ingredients sit Chambord in a much more superior place to a standard Cassis.

It is light on alcohol at only 11% ABV, but has a rich, complex taste deriving from the infusion of a blend of high quality herbs and roots. The original recipe has remained unchanged and a secret to this day. In the immediate post-war period and in later years, Aperol became popular all over Italy, particularly with young adults, people with an active lifestyle and women. Nowadays Aperol is distributed in dozens of countries worldwide.

The name says it all: Aperol is the perfect aperitif. Bright orange in colour, it has a unique taste thanks to the secret recipe which has never been changed, with infusions of selected ingredients including bitter and sweet oranges and many other herbs (including rhubarb) and roots in perfect proportions. Aperol's strength is in its low-alcohol content.

BOMBAY SAPPHIRE

At Bombay Sapphire, their spirit of innovation and inspiration is not only embodied in their gin but in their Master of Botanicals himself, Ivano Tonutti.

Travelling to the four corners of the world he's developed personal relationships with each and every supplier, some going back decades. As Ivano himself says, this absolute attention to detail is "simply about maintaining the standard of care behind our gin".

Creating the finest gin possible takes the highest quality raw ingredients. They use up to 12 precious botanicals suspended above the spirit in perforated copper baskets during distillation. That way, as the heated spirit vapours rise, they're gently infused with all the rich aromatic flavours our botanicals release.

While ordinary gins boil their botanicals directly in the spirit to achieve their flavour, the wonderfully distinctive taste of Bombay is created using the Vapour Infusion process. They still use their original Carter head stills – Tom and Mary – from the 1830s, but now have added two state-of-the-art 12,000 litre copper pot stills – Henry and Victoria – to their refurbished original stills.

From the heat of their Moroccan cubeb berries to the spice of their West African Grains of Paradise, every one of the ten precious botanicals are chosen to bring their own special something to this gin. Uniquely distilled, they come together to give Bombay Sapphire its tantalising, smooth and complex taste.

GREY GOOSE

To create Grey Goose vodka, François Thibault maintains an unrivalled level of craftsmanship, using only the very finest ingredients.

It's signature smoothness and distinct character are the result of an extraordinary passion for spirit making and an unparalleled commitment to the highest possible quality.

Each batch of Grey Goose® vodka begins with soft winter wheat grown on farms in and around the fertile Picardy region of Northern France. Grey Goose maître de chai François Thibault insists on using only the highest-grade wheat—the same wheat used in the finest french breads and pastries.

After the wheat grain is fermented and distilled into a high-proof spirit, it travels south to gensac-la-pallue, in the cognac arrondissement (region), France, where it is blended with the remarkably pristine spring water found there.

GLENFIDDICH

For 20 years William Grant nurtured a dream to make the 'best dram in the valley'. With the help of his family he finally achieved that vision.

In the summer of 1886, with his seven sons and two daughters by his side, William set out to fulfil a lifelong ambition. Together they began building his Distillery by hand, stone by stone. After a single year of work it was ready and William named it Glenfiddich, Gaelic for Valley of the Deer.

William's passion, determination and pioneering spirit continues to guide the brand today. Glenfiddich is one of the few single malt distilleries to remain entirely family owned and is now the World's Most Awarded Single Malt Scotch Whisky.

The Glenfiddich 12, 15 and IPA are very different in style but have an underlying DNA of Glenfiddich that links them together. The 12 is the light, fresh and fruity, the 15 is rounded with sweetness and spice while the IPA is hoppy, vibrant and zesty.

- ***Glenfiddich 12 Year Old** is the most awarded single malt in the world.*
- ***Glenfiddich 15 Year Old** is the first ever single malt created using the unique Glenfiddich Solera System.*
- ***Glenfiddich IPA** is the first single malt whisky in the world to be finished in IPA Beer casks.*

MARTELL VS

Martell VS ('Very Special') cognac was created over 150 years ago under the 'Three Star' name (***) and is enjoyed all over the world.

Martell VS Single Distillery marries spirits from a single distillation source in the Cognac region, in France, for a richer and more intense expression of the Martell distillation style. Among the great cognac houses, only Martell double distils exclusively clear wines – from which all sediments have been removed – in order to preserve the authentic fruity aromas of the grapes and reveal an extreme finesse that are hallmarks of the Martell style. Taking this approach further, each bottle of Martell VS Single Distillery is blended from eaux-de-vie derived from a single distillation source. In this supremely smooth blend the luscious fruity aromas associated with Martell are truly taken to new heights.

Bright and golden in colour, Martell VS Single Distillery reveals pleasant notes of plum, apricot and candied lemon on the nose. Its rich fruity flavours on the palate and its luscious mouthfeel make for a great Cognac to enjoy in long drinks or in cocktails, pairing particularly well with citrus and red berries.

OLMECA REPOSADO

Olmeca was launched in 1967 and now has a presence in 80 countries worldwide.

Making tequila requires time, know-how and the right ingredients. Olmeca tequilas use only hand-selected ripe agave from the Los Altos region. These are slowly roasted in traditional brick ovens for three days, crushed, fermented and distilled in copper pot stills. Each aged Olmeca tequila (Reposado and Añejo) is matured in small barrels previously used for bourbon.

Olmeca is a quality Premium Tequila. Its expert and unique production process combines hand-picked Agave plants, traditional brick ovens, cultivated yeast and distillation in copper pot stills.

Olmeca Reposado is a fruity, sweet and citric tequila that has smoky and slightly woody aromas. It is sweet and slight honey flavoured with a smoky hint of black pepper. Olmeca Reposado is aged for 8 months in 200 litre white American oak ex-Bourbon casks.
